

Getting financial help to lower health insurance costs

Cost-sharing reductions

What is a cost-sharing reduction?

A cost-sharing reduction is money the government pays to help cover out-of-pocket health care costs for people who qualify. Cost-sharing reductions help make health care more affordable by lowering the amount of money you pay out of your own pocket each time you get medical services. You can lower your out-of-pocket costs if your income is at or below 250 percent of the poverty level and you use the Missouri Marketplace.

Do I qualify for cost-sharing reductions?

If you use the Marketplace and enroll in a Marketplace Silver Plan, you may be able to get cost-sharing reductions based on your yearly income. When you fill out your Marketplace application, you'll see if you qualify and how much you can save.

You qualify for cost-sharing reductions if:

- You get a premium tax credit
- You choose to buy a silver-level health plan through the Missouri Marketplace
- Your household income is at or below 250 percent of the Federal Poverty Level

To see if your income is at or below 250 percent of the 2018 Federal Poverty Level, find the income range for your family size in this chart:

Family size	Yearly income	Monthly income	Hourly income (based on working 40 hours a week)
1	\$30,350 or less	\$2,529 or less	\$14.59 or less
2	\$41,150 or less	\$3,429 or less	\$19.78 or less
3	\$51,950 or less	\$4,329 or less	\$24.98 or less
4	\$62,750 or less	\$5,229 or less	\$30.17 or less
5	\$73,550 or less	\$6,129 or less	\$35.36 or less
6	\$84,350 or less	\$7,029 or less	\$40.55 or less
