# How does health insurance work?

Here are the basic steps of how to use your health insurance. Turn this page over to learn about the health insurance words used below.

September 2017 Page 1 covermissouri.org

## Health insurance words to know

**Copayment, also known as a copay** – A fixed amount you may pay at the time you receive a health care service – for example, you may pay \$15 when you go for a doctor visit.

**Explanation of Benefits (EOB)** – A written explanation from your insurance company about a request for payment, or claim, they have gotten from you or your health care provider. You might not get an EOB for 30 days or more after you get a health care service.

The EOB shows how much money the insurance company paid and how much money you must pay (if any) for the covered health care service or item. The EOB is not a bill. If you owe any money, you will get a bill from your health care provider.

**Health Insurance Marketplace** – An online marketplace where you can buy a Qualified Health Plan (Bronze, Silver, Gold and Platinum in Missouri) or Catastrophic coverage from private insurance companies.

**Premium** – The cost you pay for your health insurance. Premiums may be paid by you, your employer or a combination of both. It is usually paid monthly.

**Preventive care** – Routine health care that includes screenings, check-ups and patient counseling to help prevent illnesses, disease or other health problems. Many preventive care services are free to you, so you don't pay a copayment or other fees for these services. Learn more about free preventive care services at **healthcare.gov**.

**Summary of Benefits and Coverage (SBC)** – A written summary of a health insurance plan that shows its costs and benefits. When you are shopping for health insurance, you can compare the costs and benefits of different plans by reading their SBCs. When you enroll in a health insurance plan, your insurance company will send you the SBC for your plan.
