

How can I compare health insurance plans from on and off the Marketplace?

The 2010 health law (Affordable Care Act, or ACA) created a Health Insurance Marketplace where people can compare and buy health plans online at Healthcare.gov. Marketplace plans have some differences in costs and coverage, but they are all required to include certain features that protect consumers, such as:

- Coverage for the 10 essential health benefits, such as pharmacy and hospital services
- Coverage for health problems you already have (pre-existing conditions), such as diabetes or cancer
- Contract term of 1 year, from January 1–December 31, with no limits on total benefit amounts paid
- Financial help for people who qualify, including tax credits

You can also buy plans off the Marketplace that have features to protect consumers. These include plans through your workplace, online, or through an insurance broker. However, be cautious about getting a short-term, limited duration (STLD) health plan. STLDs are only meant to help bridge a short gap when you lose your regular coverage, and they often have limited benefits.

Use the worksheet on pages 2–4 to help compare plan costs and coverage and see which plan is best for your needs and budget.

Worksheet instructions:

1. Gather information about each plan's coverage, such as a copy of the plan policy or the Summary of Benefits and Coverage (SBC). For example, you'll find SBCs of all Marketplace plans at healthcare.gov for English or cuidadodesalud.gov for Spanish. If you need help finding coverage information for plans off the Marketplace, contact:
 - An assister in your area at covermissouri.org or **1-800-466-3213** in English or **1-855-284-3236** en español
 - An insurance broker in your area
 - The insurance companies that offer the plans you're considering
2. Use the information to fill in the worksheet.

What are short-term, limited-duration (STLD) health plans?

Plans that provide coverage for a limited amount of time – the contract lasts less than one year and may be renewed for up to 3 years at most. They do not have to follow the rules of the Affordable Care Act (ACA), so these plans may not cover pre-existing conditions or all 10 essential health benefits, and may put limits on how much they'll pay for covered health care.

\$ _____

Definitions of insurance words

Premium – The monthly cost you pay for health insurance – they may be paid by you, your employer, or both.

Tax credit – money the government pays to help cover Marketplace plan premiums for people who qualify.

Copayment, copay – A fixed amount you may pay at the time you receive a health care service.

Deductible – The amount you pay out of your own pocket for your covered health care services before the plan starts to share the cost.

Co-insurance – Your share of health care costs after you have paid your deductible each year. The plan will pay the other share.

Out-of-pocket maximum – A limit on how much you have to pay out of your own pocket each year – for example, \$5,000.

Questions about coverage
